

The background of the image is a photograph of the Nashville skyline at dusk. The sky is a mix of dark blue and orange from the setting sun. The city lights are visible, with the most prominent being the blue and white spire of the AT&T Building. A bridge with white steel trusses spans the river in the middle ground. The river reflects the city lights and the sky. The text 'ODTUG Kscope24' is overlaid on the image. 'ODTUG' is in white, sans-serif, uppercase letters. 'Kscope' is in a larger, white, sans-serif font, with the 'K' being particularly large. '24' is in a colorful, geometric, low-poly style with shades of yellow, orange, red, and blue. Below the main title, the text 'nashville, tn' and 'july 14 - 18' are written in a smaller, white, sans-serif font. At the bottom center, the word 'Welcome' is written in a white, sans-serif font.

# ODTUG Kscope24

nashville, tn      july 14 - 18

Welcome

Let's start with a little quiz

*ORDS was called  
APEX Listener*

**True**

*ORDS can be used to  
upgrade APEX*

False

# *ORDS can clone Pluggable Databases*

# True

# *ORDS can clone Pluggable Databases*

# True

# *ORDS can starve your Database*

# NULL

# Demo Time

- List PDBs
- Clone PDB
- Show APEX Instance Information
- Show Database Users
- Show Tables of a Database User

# ORDS 23.4 Documentation
